

Anwar Visram

BIO:

Anwar specializes in assisting Family Offices, affluent families, athletes, celebrities and their trusted advisors to protect themselves from the rapidly growing cyber threat.

Anwar is an international speaker presenting at Family Office, Private Banking, and Wealth Management events around the latest digital ("cyber") tactics used in financial fraud, extortion, ransom, and reputation attacks used to target them and their clients.

Anwar's experience spans over 25 years in Cyber Security and Information Technology Advisory. He has advised clients across the world on cyber security issues including having lead security teams responsible for protecting multi-billion dollar global financial corporations.

Anwar is currently a member of British Columbia's Provincial Security Advisor Committee, where he advises top government officials on current global cyber threats targeting both businesses and individuals. Anwar has also been featured in online news media, in magazines and on the radio.
