

Karolina Kabak

VDEC Partner and Program Director

Karolina is the lead and best practices expert for all VDEC members. She is a graduate of the University of the Fraser Valley's Certified Dental Assistant program and SFU's business administration program. With over a decade of applied experience, Karolina is a certified treatment coordinator, clinical practice designer, lecturer, coach and surgical mentor. Her clinical specialties include general dentistry, cosmetic full-mouth rehabilitation, pediatric, oral surgery, and all levels of sedation. She has worked within high and lower volume dental practices, as well as government and union-structured environments. When it comes to business and relationship management and operational skills, Karolina is the one you want on your team! She will help you to redesign and launch a full spectrum of clinical systems and protocols, from clinical practice to dental administration, and patient relations.
