

## **SPEAKER BIO - KRYSSI MCKIEL RDH BSc CSP**

With more than 23 years in clinical practice, Kryssi has diversified her career in dentistry, working in various clinical settings from private practice to university clinical to periodontal specialty, initially as a Certified Dental Assistant and currently as a Registered Dental Hygienist. Kryssi has added new dimensions to her career becoming a clinical educator and writer, speaking on dental implant rationale and maintenance, instrumentation, patient-centric practices and the oral health/overall health connection, as well as being published in RDH Magazine. Kryssi is dedicated to improving dental clinicians understanding and treatment of oral health, believing that continued knowledge is the gateway through which patients receive the best care we have to offer.
